# *Synopsis*

## **"Dany Cage, a story about emancipation"**

is a 73-minute documentary that traces the birth, life and death of a psychedelic rock club in Luxembourg in the late 60s. This legendary place only existed from 1969 to 1972, but it had a profound effect on the minds of its contemporaries. It was the time of the Vietnam War, Summer of Love, May '68 and Woodstock, and young people aspire to more freedom...

This testimonial film, based on a series of interviews with 18 witnesses from the period, archive footage and fictional moments, shows the extent to which music played a decisive role in this process of emancipation.

# ***A crossed project***

Dany Lo, the creator of the emblematic club "Dany Cage", is still a singer and guitarist!

A figure of the French-speaking rock scene with a career ranging from the islands to the metropolis, most of his musical career took place in Guadeloupe before returning to Paris. Sometimes solo, sometimes in duo with the musicians Diabolo, or even Denis Van Hecke, Dany Lo always plays in bars, preferring the warmth of the bistros to big halls.

**ARTIST SUPPORTED BY THE LABEL B&D PRODUCTION, HE IS THE MAIN CHARACTER IN THE FILM DANY CAGE.**

Dany Lo, who never let go of his guitar, makes his comeback with his brand new single *Bistro*, to listen and re-listen since November 25, 2022 !
